Give your patio furniture an instant update with NorthCape's broad selection of replacement cushions.

Whether you need to replace a worn cushion set or want to add a pop of color to your patio furniture, our replacement cushions are designed to withstand the elements beautifully, season after season.

NorthCape offers a wide selection of premium Sunbrella® fabrics for our replacement cushions. Sunbrella® solution-dyed acrylic fabrics are made from acrylic fibers in which the pigment and UV-inhibitors are added at the liquid stage, before the strands are formed into threads. This makes the fibers more resistant to fading because the color and UV-inhibitors go all the way through each thread instead of being applied only to the outside. In addition, the acrylic fibers used in this process also impart a softer feel to the fabric. Industry-leading Sunbrella® performance fabrics are also bleach-cleanable!

NorthCape offers 9 proprietary premium Belenos fabrics for our replacement cushions. Belenos solution-dyed poly fabrics are an all-weather fabric, stain resistant, soft and breathable, and bleach-cleanable!

PREMIUM CONSTRUCTION

Our 3-layer premium cushion construction is comprised of (1) a supportive, yet comfortable cushion core, (2) a strong, wrinkle-resistant layer of polyester fiber, and (3) the outdoor performance fabric of your choice. This 3-layer construction provides the best in both comfort and longevity for your replacement cushions set.

Dacron is used on most seat cushions. Exclusions include dining chairs, chaise lounges and a variety of ottomans.

Cushion Styles

We offer many style options including these:

BULLNOSE

BOX

Enduring Color

- UV resistant; colors stay strong and vibrant under intense sunlight
- Bleach cleanable and Chlorine Resistant

Worry Free

- Stain and mildew resistant
- Easy to clean

Fade-resistant – Sunbrella fabric is unmatched in resistance to fading and the degrading effects of sunlight.

Colorfastness – Sunbrella fibers are saturated with highly UV stable pigments. Traditional dyeing methods only add color to the fiber exterior. Sunbrella fabrics' performance characteristics are an integral part of the fabric, not an applied finish that would wash off over time. Think of a carrot versus a radish.

Durable – Sunbrella fabric retains its strength after years of cleaning and weathering.
